

John Crossan

My name is John Crossman and since 2017 I have served as Vice President of Concord Township Council where I led the preservation of 125 acres of land, the update of the comprehensive open space plan and the allocation of \$8m locally for open space and the expansion of parks and trails in Concord Township. I entered public service as a member of the township open space committee after being involved with the "Save The Valley" grassroots efforts to keep 250 acres of a nature preserve along the Brandywine Creek from being developed. My upbringing in 4-H and Christian values inspire my dedication to good stewardship of our natural resources. I leverage my professional knowledge and experience as a REALTOR to bring parties together to preserve the beautiful legacy of land and enhance our quality of life here in Delaware County.
