

## William J. Lighter, Jr.

My name is William J. Lighter, Jr. and I have been a resident of Collingdale for 18 years. I love Delco because natural escapes abound.

I am a landscape construction manager and U.S. Army veteran. I am also a father of three, including one with Autism. I have more than thirty years' experience as a designer in engineering and construction.

I hope to help our neighborhoods protect and develop green spaces and discover the therapeutic benefits they can provide to citizens with learning challenges, behavioral health needs, emotional trauma, and traumatic brain injuries.
